CERTIFICATE IN CREATIVE SUPERVISION 2021-2022

Overview

This popular person-centred creative Supervision Certificate training course, run by the Jenny Biancardi Consultancy, has been running successfully for twenty-five years. It is accredited by the BPA, who are organisational members of the UKCP. This is the second year running online.

The course is designed to train supervisors from a variety of backgrounds. It is suitable for those who wish to develop supervision skills, and for those who are already supervisors and who want to work in more creative and expressive ways, including with therapists who may use a model of counselling different to their own.

Participants frequently come from outside the North East of England, including from the rest of England and from Scotland.

Content

Course content includes:

- Person-centred theory
- Theories of supervision
- Action techniques drawn from psychodrama
- Creative supervision
- Group and individual supervision
- Practical supervision sessions
- Examination of the relationships involved in supervision
- The boundaries between therapy, training, managing, and supervision
- Ethical issues
- The BACP code of ethics
- Feedback and assessment

There will also be dedicated time to look at the particular issues involved in supervising therapists who work with children.

Quote

Jenny Biancardi created a warm and supportive environment in which great learning and personal insight took place. She provided a welcome balance of theory and experiential activities to build my knowledge and practice as a supervisor... The course was inspiring, thought-provoking, affirming and fun! I would recommend this course to anyone, as it is a course I go back to in my mind and draw from regularly.
Sarah Wortley, Senior Counsellor, Hull College Counselling Service

Assessment

Assessment is on-going by peer group and by tutors. It includes:

- A written assignment of 3000 words
- A practicum (an observed practice supervision session), with 1000 words commentary
- Monthly group feedback on learning process
- A recorded supervision session, with a commentary of 1000 words.

Tutors

This course is taught and facilitated by two experienced counsellors and supervisors:
